

# Braille Business Cards

## Stock Specifications :

- 8 up or greater printing preferred
- Sheet sizes of 197x297mm (A4) with cards printed in a portrait style is preferred as we can then use a range of embossers. Sheets smaller than this are acceptable.
- Maximum sheet size of 297 x 500, with the Braille oriented at landscape, i.e. running along the longest direction of the page.

## Stock Type

- Stock should be un coated, as coated stock may crack with embossing
- Stock 300gsm or smaller delivers the best Braille resolution, stock over this will deliver readable Braille, however the resolution is not as great i.e. Braille not as high.

## Ordering Braille Business Cards

All business cards should be delivered as uncut stock. The details that are required to be embossed should be forwarded with material or via email.

Standard business cards will fit a persons name and one contact number only. Please complete the details below and forward with business cards.

The logo for the National Information Library Service (NILS) is displayed in a white box on a blue background. The text is arranged in four lines: 'National', 'Information', 'Library', and 'Service'. The 'N' in 'National' and 'S' in 'Service' are larger and more prominent than the other letters.

\* The National Information and Library Service (NILS) has been established to improve access to published information for Australians with a print disability. Services available from NILS include a lending library of audio and Braille books, an accessible format production capability and consulting in both web accessibility and accessibility of published information. NILS is a joint venture of Royal Victorian Institute for the Blind, Royal Blind Society NSW and Vision Australia Foundation.
